

Academic Year: 2026-27

Health Facilities

At **Sinhgad College of Commerce**, the health and well-being of students remain a top priority. The College is committed to creating a safe, healthy, and supportive environment that promotes the physical, mental, and emotional wellness of every student.

To ensure prompt medical assistance, a well-equipped First Aid Centre is available on campus to attend to minor injuries and health concerns. In case of emergencies, the College has access to qualified medical practitioners on call and maintains links with nearby hospitals for timely medical care.

The College periodically organizes health check-up camps and awareness programmes to encourage preventive healthcare and promote healthy lifestyles among students and staff. Counselling services, yoga sessions, and wellness initiatives are also conducted to help students manage stress, improve emotional well-being, and maintain a balanced lifestyle.

The campus is maintained with high standards of hygiene, providing clean drinking water, well-maintained sanitation facilities, and a healthy learning environment. The College is also committed to creating an inclusive campus by ensuring accessibility through barrier-free infrastructure, including ramps and other facilities for differently-abled students.

Through these comprehensive health and wellness initiatives, Sinhgad College of Commerce strives to foster a secure, inclusive, and health-conscious campus where students can thrive academically and personally.
