

CENTRAL FACILITIES

Sinhgad College of Commerce provides a range of common facilities for the academic and overall development of students and staff. These facilities support effective teaching, learning, administration, student engagement, and institutional development.

The following facilities are available in the college:

1. **Central Library** – The college has a well-equipped library with textbooks, reference books, journals, newspapers, and digital learning resources. The library is supported by library automation systems and provides reading facilities for students and staff.
2. **Computer Laboratory** – A well-equipped computer laboratory with 45 computers and internet connectivity is available to support practical learning, digital literacy, research, and technology-based academic activities.
3. **ICT-Enabled Classroom** – The college has an ICT-enabled smart classroom equipped with digital teaching facilities for presentations, interactive lectures, workshops, and guest sessions.
4. **Audio-Visual Room** – The AV Room is used for seminars, workshops, faculty development programmes, student training sessions, guest lectures, and other academic activities.
5. **Wi-Fi Enabled Campus** – Internet and Wi-Fi facilities are available to support teaching, learning, research, and administrative work.
6. **Sports Facilities** – The college encourages students to participate in various indoor and outdoor sports activities. Sports events, competitions, and annual sports activities are regularly organised for students.
7. **Staff Room** – A dedicated staff room provides faculty members with a comfortable space for academic preparation, departmental discussions, meetings, and collaborative work.
8. **Counselling and Student Support** – The college provides guidance and counselling support to students for academic, personal, emotional, and career-related concerns.
9. **Career Guidance and Placement Support** – Career guidance activities, resume-building workshops, skill-development programmes, and placement-related support are provided to prepare students for higher education and employment opportunities.
10. **Drinking Water Facility** – Safe and purified drinking water facilities are available for students and staff on the college premises.
11. **First-Aid Facility** – Basic first-aid facilities are available in the college to provide immediate assistance in case of minor medical emergencies.
12. **CCTV Surveillance and Security** – The college premises are monitored through CCTV surveillance to ensure the safety and security of students, staff, and institutional resources.
13. **Administrative and Student Service Facilities** – The college provides centralised administrative support for admissions, examinations, scholarships, student records, certificates, and other academic services.
